The post office is now open Sunday mornings from seven to eight o'clock to distribute mail left by the night trains. This is a great convenience. It also gives us the Louisville Times, and Louisville Post, which excellent papers enjoy a good circulation here.

Good News Gatherer.

While Judge M. D. Hughes is working up Maccabee lodges, George Smith is gathering news for the former's numerous papers. George wields a ready quill and can send an item as quick as the next one. We are under obligations to him for valuable help this week.

The Interior Journal of the 10th, contains a very good picture of Miss Ethel Traylor, who has many relatives and a host of friends in this county. It also contains a letter from George S. Bryant, President of Woodland College, Independence, Missouri, in which he speaks very highly of Miss Traylor's accomplishments, and predicts for her a brilliant future in the journalistic line.

"Brother's" a Good Un.

John Newland, chief of police at Stanford, passed through town Sunday on the trail of a fellow who had stolen some goods. "Brother" is a day hawk and a night owl. O'Connell never escape his watchful eye, no matter when they do devillment.

After a Gang.

Officers from Madison and Lincoln counties were here Sunday, in search of members of the Gill-Story gang, who are accused of stealing all over the country. They seem to have a mania for harness, saddles and bridles, but will take anything from a monkey-wrench to a threshing machine. The Madison officers succeeded in bagging two of the members, but "Brother" Newland went back empty handed. However, he has one of the gang in jail at Stanford.

Will Dandup in Cuba.

A letter dated at Tampa, from Will O. Dandup to his mother, says: "Twenty thousand of us regulars and volunteers are loaded and are being loaded to leave for Santiago de Cuba or Porto Rico, today. We are under scaled orders and will not know which place until out at sea. We are the first troops to leave here. Four of Sampson's men of war will escort us. I am well, and getting along nicely. I belong to 'C' troop, 6th United States cavalry.

Left 'Em Out.

In the hurry of writing up the five or six parts of the Faulconer-Mason wedding we omitted the names of Horace Herndon and Letcher Owsley, the gentlemen attendants. How such an oversight occurred is hard to explain to anyone knowing nothing of the work to be done in a printing office. On Wednesday we prepared our "local" help set it, read the proof, correct it and "make up" Wednesday night. This, in connection with looking after some ten thousand other things, is calculated to take up a good slice of one man's time. We are, indeed, glad that it was Horace and Letcher whom we overlooked, as they have sense enough to know that errors will occur. If they were two thick-headed idiots, like some people we know, they would have quit taking the paper and gone about preaching of our short-comings. On the other hand, they say it is a good one on them and enjoy it as quite a joke.

Excellent.

Arrangements have been completed for receiving mail from the night trains. It is brought up and thrown into the post office door, and Postmaster West opens it at 7 o'clock. This is as early as the majority of business men could wish. The mail which goes out at night is closed at 6 p. m., giving much more time than under the old way. The day trains will continue to bring mail, one at 11:30 a. m., and one at 4:30 p. m. The express is also put off now, and words are inadequate to express the gratefulness of our people to the L. & N., for this accommodation. Our town is now as well equipped with trains, mail and express as any in the state. And this was all brought about by the hustling of a few citizens. If everybody would hustle, instead of lounging around and raising objections, we could soon have a town second to none in the state. One or two parties have fought teeth and toe-nail the putting on of this train service, but their little wails failed to cut any ice. The day for three or four men to run Lancaster is passed, and the majority has taken charge of affairs.

Raiders.

Toll gate raiders got in their work in this county again Friday night. The double gate on the Richmond road was chopped to pieces and the usual note of warning left. The gate keeper started down the road to inform a director of the work and discovered a bridge on fire. He worked for sometime and succeeded in extinguishing the flames. Road officials came in Saturday, made the required affidavit and Judge Burnside furnished guards. The gates have been replaced and toll is again being collected. This road and the one leading to Crab Orchard are the only ones in the county now collecting toll. Gate-keeper Ollie Terrill, appeared before Judge Burnside, Saturday, and swore out a warrant for Wm. Wren, a teamster for Koehler Bros., the lumber men. Terrill says he positively identified Wren as the man who fired at him. He says when he went and told him so, Wren said, "Well, if you know me so well, I will put an end to you," and discharged a Winchester rifle at him, however, the ball missed him and embedded itself in a near-by plank. Deputy Sheriff Ward arrested Wren at Cartersville, Sunday, and brought him to jail. Wren told a Reconn man that he knew nothing of the toll gate raid, and that he was at home in bed that night. He will have an examining trial as soon as he can secure a number of witnesses by whom he claims he can establish an alibi.

As the season is about passed our line of wall paper has not been reduced sufficiently, we are now closing it out at reduced rates. J. A. Beazley & Co.

John Kersey, colored, who shot, and it was thought at the time, fatally wounded Henry Beazley, another negro, was admitted to bail Monday, in the sum of \$500, with O. G. Speaks and Ed. Hughes, as sureties. Beazley is getting well.

Remembered the Boys.

A number of ladies prepared and sent to the soldier boys a huge box of good things to eat. They sent several hams, chickens, homemade light-bread, pickles, cakes, etc. Enough for the entire company was put in, and we know the hungry fellows will live high for a while.

Amour-Kelley.

A marriage which somewhat surprised their many friends was that of Dr. J. A. Amour and Miss Ida May Kelley. The ceremony was performed by Ed. Gowen at the residence of the bride's mother in this city, Wednesday afternoon, at four o'clock. The bride is a handsome and attractive lady, and has many friends among the young people. Dr. Amour is widely known in Garrard, having made the race for school superintendent last fall. He is a good physician and enjoys a large practice.

Closes Down.

The Hagerman Distillery shut down for the season last Friday, after a run of several months. This is one of the most complete and successfully operated distilleries in the State. Manager John W. Miller and C. R. Norris spared no pains to make it a success, and it goes without saying that when they place their shoulders to the wheel, failure is impossible. Messrs. Jake Kortz and John Adams, who were employed in the bottling department have returned to their home in Cincinnati.

A Hot Time.

There'll be a hot time in the old town of Stanford, Friday night 17th, and the array of beauty and chivalry in the handsomely decorated Opera House will be a picture to linger in memory. The subjects selected are only excelled in beauty by the loveliness of the nine young ladies who participate, neither of whom comes for health alone, but to contest every inch of eloquatory ground. It will really and truly be a contest from start to finish, and as tickets are going like hot cakes on election day at McRoberts drug store, a tremendously large audience will greet the grand galaxy of eloquatory stars when the curtain rises promptly at 8 o'clock. Beazley, Waters & Menefee, Managers.

The Best War News.

The Louisville Courier-Journal is now publishing the fullest, most accurate and most reliable war news of any paper in the South or West. It is devoting all its energies to making a reputation for its war reports, and is certainly succeeding admirably. The Courier-Journal has subordinated all other issues to that of the war. Politics, money, civil service, the tariff—all are out of it now. The war is the one topic discussed by the people, and they want the news of it fresh and accurate. The Courier-Journal realizes this, and it is supplying the demand as no other paper can do.

The Twice-a-Week Courier-Journal prints the cream of the daily news. It is issued Wednesday and Saturday. The price has recently been cut from \$1 to 50 cents a year, making unquestionably the cheapest, as well as the best, paper published anywhere. You get 104 six or eight-page papers for 50 cents.

By a special arrangement, the Twice-a-Week Courier-Journal and THE CENTRAL RECORD will be sent one year for only \$1.25. Subscriptions under this offer must be cash, and must invariably be sent through the office.

More Men Wanted.

The order to recruit the companies up to 105 men makes it necessary for the Lancaster company to get about twenty-five more soldiers. Those desiring to enlist can see the recruiting officers now in Kentucky, be sworn in and have their transportation paid to Chickamauga. The officers will be in this neighborhood within the next few days. Any young men who have good health, ought to enlist. They are well paid, and, beside, they should have enough patriotism to answer their country's call.

Obituary.

Having stated, in our last issue, that the life and character of Mr. John L. Arnold, deceased, deserves a fuller mention than was then given, we note the following: He was born January 23, 1833, being 65 years old at the time of his death. He had been a sufferer of asthma since 1855, but, being possessed of a strong nerve and great will power, he succeeded well in life and reared a large and highly respected family. He was a man of fixed convictions on every subject, either in private or public life, and always had a cheerful word for everybody with whom he came in contact, no difference what was his condition in life. He was an indulgent father, an affectionate husband, a kind neighbor and a consistent member of the Christian church. Being ever ready to lend a helping hand toward any enterprise, that had in view the elevation and cultivation of his fellow-man, he will be missed in this community and wherever he was known. In fact, his character should be emulated by the rising generation, thereby improving and bettering mankind. He was not only distinguished, for his noble qualities, in times of peace, but following his honest convictions, he enlisted in the Confederate army about the beginning of the late war, and was one of the valiant members of the 31 Ky. cavalry, under General Gano, until the close of the war. Many men who had become attached to him during that struggle, as well as in the ordinary walks of life, attended his funeral and paid the last tribute of respect to a noble, worthy and conscientious man.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by R. E. McRoberts.

Special Term of Circuit Court.

A special term of the General Circuit Court was held here last Thursday by Judge Stanley, to determine who should receive the \$10,000 paid over on that day by the Insurance Companies on the death of M. W. Johnson, who died here in December 1896. At the time of his death he held three policies aggregating \$30,000 in the Michigan Mutual; \$10,000 in the Mutual of New York; \$50,000 in the New York Life, and three policies aggregating \$20,000 in three Accident Companies.

Shortly after his death the Michigan Mutual paid a small policy of \$1,500 in full, it going equally to the widow and children. The Mutual of New York and Travelers Accident Companies now come and offer to compromise their two policies of \$10,000 each at 50 cents on the dollar, which, on advice of the attorneys, the Court has instructed the parties to accept, and this special term was held to decide to whom the money should be paid. The accident policy had been assigned to the Edwards-Barnard Tobacco Warehouse Company, of Louisville, as collateral security by Johnson, and the court held the assignment valid and binding, less attorneys fees, commissions and costs, in collecting same.

The Mutual Life policy was payable to "Mary C. Johnson, widow of Matthew W. Johnson and their children," and the court was required to decide whether said widow was entitled to one-half of same, or should receive share and share alike with the five children. The court held that said language gave the widow one-half, from which decision an appeal has been taken by J. M. Higginbotham, as guardian of said children. Said warehouse company also held an assignment of one-half of said policy, but same was construed to take one-half of the widow's share only, and not effect the children's interest.

The cases present very interesting questions and are being bitterly fought by opposing counsel. The Warehouse is represented by Humphrey & Davis, of Louisville, the widow by J. A. Sullivan, of Richmond, while the guardian and administrator is represented by W. McC. Johnston, of the local bar. The other suits are still pending at Louisville.

AFTER many seemingly unequal for delays, the transports bearing troops for the invasion of Cuba finally got away from Tampa, Tuesday. It was believed Monday night, even by the officials at Washington, that the transports had passed Key West and were well on the way to Santiago, but to the general disgust it was announced Tuesday morning that all of the fleet had not yet left Tampa. The fleet consists of forty-nine vessels, of which fourteen are warships. Meanwhile the brave band of marines at Crest Heights are fighting almost constantly, day and night, to retain their hold on Cuban soil, until the arrival of the troops. Numerous fights have been had by the marines and Spaniards. The Dons outnumber the Americans nearly three to one, but only a few of Uncle Sam's lads have been killed. Many reports as to what steps Spain is taking are published, but after reading them for several days, one becomes satisfied that there is absolutely no truth in anything coming from there. The Dons are keeping their every move secret, but as much cannot be said of the Americans. An American officer landed near Santiago, and, stealing close in, saw Cervera's fleet in the harbor. United States war ships are still watching the entrance to this harbor like a cat guarding a rat hole. There is one thing certain, and that is this: bottled up fleet is well out of the way, as the Spaniards will either have to surrender or destroy them. The invading army will doubtless land in Cuba today and we believe a bitter fight will be waged by our men. The Americans, being anxious to get away from the place, will make every shot count, and fight like tigers. All the officers and men want to get down to business and end the war, and they would have done so long ago, had it not been for the disgusting way in which they have been delayed by the authorities at Washington.

DOWN at Chickamauga this week we got a look at many of the home-spun capotons and generals, which articles have been ground out by hundreds during the last three months. A pair of enormous boots, huge spurs, had about the size of an umbrella, long buckskin gloves, half-bushel of brass buttons, and fifteen to twenty yards of gold braid, all attached to a man about the shape of a sugar hogshead, go to make up these "warriors." All this is perched upon a big, black horse, and then you have the outfit complete. These fellows wear a very wide look, ride in front of the privates to get saluted and put on more airs than the Prince of Wales. Of course they know nothing of military matters, and, if placed in ranks, could not go to "ours right." One of these worthies rode down to the depot and we got ready to take a snap shot at him with a camera, but, just as we were ready, an engine whistle shrieked the general's horse wheeled quickly about, threw its tail over its back and went at lightning's pace through the crowd and disappeared over the hill. The gallant warrior dropped his reins, seized the animal's mane with both hands, while his long, crooked legs closed around the horse with the quickness and firmness of a steel-trap. His orderly gave chase and made every effort to overtake the rapidly disappearing general, but the last sight showed the latter gaining ground. Cries of "Lead him!" rang out, but the entire Spanish army could not have checked the flight of Uncle Sam's ready-made warrior. This is but a sample of the almost total unfitness of the hand-me-down officers which have been appointed. Their ideas of warfare are about on a par with the above referred to general's idea of horsemanship. A regular army man said to us a few days since, "I would rather be in an epidemic of cholera, with a lawyer as a doctor, than be under any one during hostilities who was not a trained and educated soldier."

The enormous expense to which this government has been put to get in fighting shape surely ought to get the people to thinking seriously enough to establish and maintain a standing army of the size it should be. Enough has been spent on the volunteers alone to have maintained an army of one hundred thousand men for many years. Had the pleadings of those in position to know been listened to, we would have had today an army which could successfully complete with any in the world. But the country has been in the sole hands of politicians when, were pulling wires for their own good and they have virtually said the country could go to the devil so long as they got what they wanted. It is, indeed, a good thing for us that poor, insignificant Spain is the oppressor against this country today. Had it been England, France, or some other equal power, they would have wiped us off the map, ere this. Some people say the establishment of a large army would be needless expense, as differ-

ences can be adjusted by diplomatic means. They might, and then they might not. Who would have thought, two years ago, that we would be involved in war today? It is human nature to flare up and fight, and human nature cannot be changed. To sift the matter to the very bottom, the whole neglect of the army, and other important matters too, has been caused by electing legislators who are either money sharks or politicians. It is hard to say which of these is the greatest curse to the country.

THOUGHTS loaded on the transports at Tampa, were caused untold suffering by the delay in getting away. After the start had been made an order was received stopping the entire fleet. The men, packed in like sardines, were compelled to stand in the broiling sun, while several high-echo-a-forems discussed some point of the expedition which did not amount to a hill of beans. This war, from the beginning, has been a miserable botch and must be very amusing to the foreign on-lookers. Those in charge sit back in cushioned chairs and take their time in making a decision which ought to be determined in fifteen minutes. They know nothing, and evidently do not care, of the sufferings being endured by the soldiers who are standing in the broiling southern sun waiting for the command to march forward and whip the enemy. The amount of tape gone through with is disgusting.

HOW "BILL" LYONS has been booked by President McKinley for a position in the army. "Bill" wants to get into the commissary department. Lyons is one of the best posted fellows on the short comings and evil doings of Kentucky republicans that we ever saw. When he likes a man, there's nothing he will not do to accommodate him, but if he dislikes one, he can peel off the bark with the greatest of ease. Here's hoping Hon. Bill will get to be chief grubstinger for the entire army.

A Lancaster man attended a national political convention in Chicago, and, stealing close in, saw Cervera's fleet in the harbor. United States war ships are still watching the entrance to this harbor like a cat guarding a rat hole. There is one thing certain, and that is this: bottled up fleet is well out of the way, as the Spaniards will either have to surrender or destroy them. The invading army will doubtless land in Cuba today and we believe a bitter fight will be waged by our men. The Americans, being anxious to get away from the place, will make every shot count, and fight like tigers. All the officers and men want to get down to business and end the war, and they would have done so long ago, had it not been for the disgusting way in which they have been delayed by the authorities at Washington.

If THE Kentucky soldiers have as hard time in the field as they do in getting equipped and started, may the good Lord pity them. Nothing but trouble and delays have met them since the first, and now that the order to recruit still further has come, there is no telling when they will get to the front.

Every foot of sidetrack at Chattanooga is occupied by sleepers and horse cars. This fact seems to make it clear that the troops now stationed there will soon be ordered either to the front or home. The soldiers there know nothing of their future movements, and are ready for what may come.

GOV. BRADLEY is endeavoring to have the Kentucky soldiers given one month's pay. As a majority of the men are now out of money, Uncle Sam should prove a friend in need, and give the boys some pocket change.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Claremont, Ark. For sale by R. E. McRoberts. 1m.

CHICKAMAUGA.

50,000 Soldiers now quartered in the Beautiful Park. Our Boys in Fine Shape.

Through the courtesy of Mr. W. C. Rine, son, the gentlemanly passenger agent of the Queen & Crescent Route, I took a run down to Chickamauga Park this week. This road is one of the finest in the country, its appointments being perfect in every detail. The track is ballasted with broken rock and gravel and is entirely free from dust. The heavy steel rails make the road as smooth as a billiard table. The coaches are of the most modern pattern and are simply moving palaces. Leaving Danville at 11:10 a. m., you are whirled along through beautiful mountain scenery and landed in Chattanooga for supper. Chattanooga is a good size place and we were surprised to see so much energy as is displayed in the little city. The mobilization of troops at Chickamauga has brought a vast amount of business to Chattanooga and many thousands of dollars are being left with the merchants. To get to Chickamauga, you take a train leaving the Q. & C. station, it being about thirteen miles to camp, it takes about thirty minutes to make the run. The station is named Lytle and is in Georgia. Arriving at this station you are not with our boys, by any means. The camp of the Second Kentucky is about two and a half miles further. A great lot of hacks stand ready to haul one to any part of the park for twenty-five cents, and the drivers, both black and white, almost pull a fellow's clothes off to induce him to ride. The drive to the park is beautiful. A continual stream of army teams line the road and the rattling of the wagons, together with the oaths of the drivers, make the place anything but lonesome. Chickamauga is one of the grandest military reservations in the world. It lies to the east of Missionary Ridge, and embraces more than fifteen square miles of territory. The aggregate length of roads forming the approaches is thirty-six miles. These are all fine, macadamized roadways, built and maintained at the expense of the National Government. There has been no work done in the Park for merely decorative purposes, but the field has been restored as nearly as possible to its condition at the time of the battles. The projectors of this enterprise (among whom were some of the most famous Generals of the North and South) intended at first that the Park should embrace only the field of Chickamauga, and in 1880 the Chickamauga Memorial Association was organized with that end in view. The following winter, however, Gen. H. V. Boynton, the author of the project, conceived the idea of enlarging the scope of the scheme so as to embrace the notable fields of Lookout Mountain and Missionary Ridge, and in the Spring of 1890 this idea was carried out and the whole established as a National Park and placed under the control of the Secretary of War, who appointed as the two civilian members of the Commission Gen. Joseph S. Fulerton, Chairman, and Gen. Alex. I. Stewart, a leading ex-Confederate, with Stanford C. Kellogg, of the Fourth United States Cavalry, as the Army Officer provided by law, and who was also appointed Secretary of the Commission. Gen. H. V. Boynton was appointed Historian and Mr. E. J. Letts, Civil Engineer. The eleven Southern States that had organizations in the battles soon after appointed Commissions and made liberal appropriations for the erection of monuments, varying from \$5,000 to \$95,000. There is at this date upward of 300 monuments in place on the field, most of them very handsome ones, besides hundreds of markers and tablets. There have been erected five steel observation towers seventy feet high at prominent points in the Park and along the Ridge. They are all in sight of each other, and the series of observations, when combined, command the entire field.

The Second Kentucky Regiment, of which the Lancaster company is a member, is located on an elevated spot which makes a very desirable camp. The tents of the twelve companies run parallel, the officer's quarters being about thirty feet to the front. To the rear are the cooking ovens. To the front of the line officer's tents come the regimental and staff officer's quarters. The camp is cleaned each morning by the "old" guard. The "old" guard means the fellows on duty the night before. The guard house occupants are made to do this work mostly, but the boys are being so nicely that seldom is there a man run in. The boys are kept pretty busy all day and seldom have time to loaf. The reveille is sounded at 5:30 a. m. Then at 6:15 the companies are drilled for two and one-half hours. This over, an officer's school is held for one hour. Then the non-commissioned officers "go to school" for an hour. After dinner nothing is done until 3:30, when the battalions are drilled for two hours. At 6:30 the dress parade is given and at 9:30 "taps" are sounded, which means every fellow must roll up in his blanket and go to sleep.

The Lancaster company, known as "Co. L," now has seventy-five men, all told. It will be recruited to 103 immediately. We found the boys in good spirits and full of life and fun. They have been untrained and are, indeed, a fine body of men. They have a number of wall tents, but some are quartered in the small, or "dog" tents. They have plenty of blankets, and the tents being well ditched, they are as well fixed as soldiers could expect to be. Of course they sleep on the ground, but being healthy men, this will not hurt them, though it would go pretty hard with a mama's darling. The men are as well drilled as any in the park, and we heard officers of other

companies say the Lancaster boys were in as good shape every way as any in camp. Capt. Duncan, Lieut. Furra and Wherritt occupy a comfortable tent and are well fixed. We pulled back the flies of this tent and found, sitting in a circle, Duncan, Furra, Wherritt, Mike Salter, Al. Burnside and "Turmond" Anderson. They were, no doubt, planning an attack on Morris Castle, but they made a rush for us, exclaiming: "Great guns! There's a man from home!" Pines may have received warmer receptions than this one, but we doubt it. Some ten thousand questions were fired at us in less than ten minutes. Lancaster may have her shortcomings, but get away from home and meet absent citizens and you will soon see the warm love the people have for the town.

There is considerable talk about the fare, but one can live a long time on the grub dished out at Chickamauga. It could be improved upon, of course, but the matter is far from being as bad as has been made out.

Capt. Duncan appointed his non-commissioned officers upon arriving at the park. They are as follows:

1st Sergt. Al. Curtis,
2nd " Rowan Sauffy,
3rd " C. M. Sherrow,
4th " Dick McGrath,
5th " W. D. Walker,
Coms' sergeant A. D. Burnside,
1st Corporal Ashby Warren,
2nd " John B. Sherrow,
3rd " John G. Lyon,
4th " Harry Robinson,
5th " Henry D. White,
6th " V. H. Hall,
Musicians, Will Marksberry and Tyra T. Creed.

NOTES.
Ned Burdett has been made regimental farrier. It is a responsible position and Ned won it on his merits. It pays \$75, per month.

Dr. Lawrence and Oliver Pritchett have been transferred to the Hospital corps.

Thurmond Anderson is regimental wagon master. He looks after all the wagons and has general supervision over the hauling, "you know", and gets \$75, per month and rations.

Kirk Kerby is pulling the ribbons over four big, black mules, and gets \$40 per month. Its good pay and not much to do.

Will Collier is regimental adjutant, ranking as first lieutenant. He has many reports to make out and is kept pretty busy. He's the same old "Pud", shoulder straps not having given him the big head in the least.

As regimental quartermaster, Will Berkele has just about as much on hand as he can attend to. He has several men under him, but is kept rushed all the time.

Captain Mike Salter is regimental quartermaster for the First Kentucky, or Louisville Legion, and is located about three miles from our boys.

All that talk about poison being placed in the spring was a fake.

Capt. Duncan says he took no part in the attempt to lynch the Maine negro. While a great deal of fuss was kicked up over the trouble, yet it was not so bad as made out.

The regiment has a band of sixteen men, and they make extra good music.

The recent rains did away with the dust, and the park is very pleasant now.

Harris White and John D. Miller, of the Lancaster company, have been transferred to the band.

The fund raised by the entertainment recently given in Lancaster was greatly appreciated by the chaplain of the regiment. Almost enough has been raised to buy the instrument and books.

The Kentucky regiments are the only ones in camp who have no "canteen." A canteen is a tent in which cigars, tobacco, provisions, whisky, beer and wine are sold. Our boys have none, as Col. Gaither would not allow it.

The boys believe they will be ordered to California, thence to Manila. This would be a great trip for them, as the climate is excellent and little danger exists.

The boys were looking forward with great pleasure to receiving a box of good things to eat, which some of the dear home-folks had started them.

If you have letters, express or anything else to send the boys, mark it "Care Co. L, 2nd Ky. Vol. Inf'y, Chickamauga Park Postal Station, Ga." This will catch them sure.

While looking at the brave boys in camp, I could not help think of how the "Jam" boys, who staid at home, would like the idea of being made to do anything. What I mean by "Jam" boys is the kind of darlings who go to the table at home and while if mommer hasn't got any preserves on the table to tickle their trifling palates. There are many Jam boys about town whose mother's still use safety pins on them. These fellows need just such a dressing down as they would surely get at Chickamauga. There are also some men holding down goods boxes and chairs about town, who, altho' past the Jam period, have never learned to work. A couple of hours drilling would not hurt these worthless either.

Ed Finley and Coleman Lee, two former Lancaster boys, are members of the Louisville Legion, and are in camp.

Bad management keeps more people in poor circumstances than any other cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in his house, the shrewd fellow will wait until necessity compels it and then rain his best horse going for a doctor and have a big doctor bill to pay, besides, one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

Mother's Friend so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

MOTHER'S FRIEND

"My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER," says a customer. HENDERSON DAVIS, Carmi, Illinois.

AMONG THE CHURCHES.

Sam Jones will be at High Bridge, Sunday, July 31.

To-day there are 1,000 native preachers in India; fifty years ago there were only 21.

Northern Presbyterian women reported \$970,125 which is \$312,377 more than the churches gave.

Rev. J. R. Richardson, a lunatic from Powell county, committed suicide in the Lexington asylum.

A protracted meeting, conducted by some eminent Divine, is contemplated in the near future, at the Methodist church. An effort was made to secure Rev. Morrison but he was unable to adjust his engagements so as to be here.

An English bishop, as he was going about his diocese, asked the porter of a lunatic asylum how a chaplain whom he, the bishop, had lately appointed, was getting on. "O my lord," said the man, "his preaching is most successful. The idiots enjoy it particular."

The efforts of the Rev. Ways, chaplain of the 2d Kentucky Reg't, to administer to the spiritual requirements of the soldierboys are spoken of very highly. Rev. Ways married Miss Marian Woolford, and for he is zealous in his christian work as his wife, the patriots of the 2d Regiment will never suffer for want of spiritual consolation.

The American Baptist Home Mission Society spent upon the schools for Negro Baptists the sum of \$137,320.01, while the Negro Baptists themselves spent for education \$102,303.91. This is a splendid showing for the Negro Baptists, especially when we analyze the \$137,320.01, we find that only \$88,166.98 came out of the treasury of the Society, while the balance \$49,153.03 was made up of the Slater Fund and other contributions. Negro Baptists are leading in educational affairs.

English Baptist Missionary Society, at its May meetings, reported having received from the churches and from legacies, \$308,473; and as "special gifts to avert a deficiency," \$47,750 more, and besides this \$30,500 for famine, earthquake and other special funds, making a total of \$396,723. After meeting all appropriations a balance of \$1,365 is left on hand.

How a man can get up enough nerve to go into a church; take a front seat, wear a long face, say he is religious and then be as mean as the devil all week is hard to understand. Some skin-flints don't seem to fear the punishment for hypocrites laid down in the good book. They have a regular sat in the sanctuary and a regular way for skinning people through the week. These gold grabbers are as certain of perdition as is a nickel for a ginger cake.

During the meetings of Rev. E. L. Marvin, at Wilmore and Nonesuch, 21 additions were added to the church, 2) of them on profession of faith and one by letter. The Presbyterian church society at Wilmore has sent Rev. Marvin to the mountains of Kentucky as an evangelist. Dr. Guerrant is preaching in eastern Kentucky.—Jessamine Journal.

One of the most enjoyable, as well as instructive assemblage of the season will be the Chautauqua, at Lexington. The meeting commences June 23rd and ends July 9th, some of the most noted Divines in the country will be in attendance and address the various meetings. There will be many special features, good music, and interesting and instructive lectures. Low rates on railroad and good accommodations at the grounds at reasonable rates place it within the reach of all who wish to attend.

CITY ORDINANCE.

The City Council of the City of Lancaster, Kentucky, do ordain as follows:

SECTION 1. Unless otherwise provided by ordinance, the grading, paving, curbing and the re-grading, re-curb and paving of any sidewalk, or portion thereof, within the corporate limits of Lancaster, which the City Council may order to be so improved shall be executed as follows: The grading shall agree with the pitch and grade of the sidewalk, with a sufficient depth below the curb to admit the sand or fine gravel and brick pavement being properly placed. When there is embankment the sides shall be sloped as much as may be necessary to sustain the pavement in position. At the outer edge of the pavement and supporting it, shall be laid a line of curb stones not less than three inches in width, and each stone shall be at least two feet in length. Curb stones shall in all cases, have a full square joint not less than fifteen inches deep. The curb stones shall be tooled down to a uniform straight line for a depth of two inches below the top on the inner side, so as to make a true and neat joint with the brick paving hereinafter specified. Curb stones shall be of good, hard limestone, free from soil, dry season or cracks. All curb stones are to be laid true to line and grade. The material excavated for placing curb stones shall, after the stones are set in position, be placed in layers and thoroughly rammed. The brick pavement shall be formed of good, sound hard-baked well-formed, whole paving bricks, and laid on a bed of sharp sand or fine gravel, thoroughly free from any admixture of earth, and four inches in depth. The pavement shall be laid with the usual bond (Herring Bone), and truly and neatly jointed to the line of the curb stone. When laid and inspected the pavement shall be covered with sharp sand or fine gravel. No broken or irregularly formed or soft brick shall be used. Each stone when laid shall be finished shall be three inches from the inside edge to the outer edge at the curbing. Around the public square no sidewalk shall be less than twelve feet wide, and on Lexington, Sanford and Lexington Avenues, from the public square to the second alley removed therefrom all sidewalks shall be not less than eight feet wide; all other sidewalks shall be not less than six feet wide.

SECTION 2. All sidewalks laid in front of the property of any person or persons, whose business necessitates the crossing thereof with wheels or vehicles, shall have a roadway either of brick, placed on edge, or of stone or flagging, extending the entire width, of suitable distance apart. Where flagging is used, each stone composing the flagging shall be not less than three feet six inches long, fifteen inches wide and eight and one-half inches deep, and the space between the flagging shall be paved with brick placed on edge, and in all cases provided for in this section, the work shall agree with the pitch and grade of sidewalks adjacent.

SECTION 3. The expense incurred in making and repairing sidewalks and curbing shall be paid by the owners of lands fronting and abutting thereon, each lot or portion of a lot being separately assessed for the full value thereof, in proportion to the frontage thereof to the entire length of the whole improvement, not exceeding a square, sufficient to cover the total expense of the work, but the owners of such property shall have the right to make such improvements, if they prefer doing so, instead of paying for same. Whenever any expense or cost is used, each stone composing the flagging shall be not less than three feet six inches long, fifteen inches wide and eight and one-half inches deep, and the space between the flagging shall be paved with brick placed on edge, and in all cases provided for in this section, the work shall agree with the pitch and grade of sidewalks adjacent.

SECTION 4. Upon the order of the City Council signed by the mayor and served by the city marshal upon any lot owner requiring pavement to be built according to ordinance, and said lot owner failing to comply with said order within sixty days after service of said notice, the city may have said pavement built or repaired and charged against said property as herein provided.

SECTION 5. This ordinance shall go into effect immediately upon publication.

Attest, W. H. Kinnaird, Mayor.

McCREARY.

Mrs. Margaret Sutton was buried in the Lancaster cemetery Saturday afternoon. She had been a patient sufferer for more than a year. The deceased was a kind, christian woman, and has surely gained the reward promised to those who remain faithful until death. She leaves a husband and six children, all grown, who will sadly miss her. Funeral services were ably and appropriately delivered by Elder Bailey, pastor of the Antioch church. Her friends and loved ones left here should remember that she is now safe in the arms of a gentle and loving Saviour, where she will be ready to welcome on the resurrection morn all those who live a God-serving and a God-fearing life here below.

McCREARY.

Mrs. Margaret Sutton was buried in the Lancaster cemetery Saturday afternoon. She had been a patient sufferer for more than a year. The deceased was a kind, christian woman, and has surely gained the reward promised to those who remain faithful until death. She leaves a husband and six children, all grown, who will sadly miss her. Funeral services were ably and appropriately delivered by Elder Bailey, pastor of the Antioch church. Her friends and loved ones left here should remember that she is now safe in the arms of a gentle and loving Saviour, where she will be ready to welcome on the resurrection morn all those who live a God-serving and a God-fearing life here below.

C. W. Anderson sold Lynn & Allen of Lincoln some good butcher stuff at \$3.

W. G. Anderson sold O. P. Huffman of Stanford some butcher cattle at \$3.75.

The wheat crop is ripening fast and farmers will begin cutting early next week. The crop is unusually good, but some little complaint is heard of smut and chinch bugs.

About a full crop of tobacco will be raised in this county this year against 65 per cent. last year. The crop is looking unusually well, notwithstanding the dry weather.

Clayton Arnold shipped to Cincinnati Tuesday 50 hogs which averaged 180 lbs. Mr. Arnold raised these hogs himself and expects them to bring him from \$25.00 to \$40.00.

H. A. B. Marksby & Son have received in the last 10 or 12 days over 30,000 lbs. of hemp and it continues to come. This firm has handled this year one million pounds.

Every year we hear the same cry of "fruit killed." This year the voice of the wisecracker was more vociferous than usual, and yet we had an abundance of small fruit; the cherry trees are loaded and in some parts of the county peaches are being picked off to lose the burden of the trees.

Nora L. the crack mare owned by Mr. John W. Miller, is in the hands of good trainers in Danville, and is said to be in the pink of condition; the mare won some good races last year, and even better may be expected of her this season. Mr. C. B. Nevius will start with her next week on the rounds of the grand circuit.

McCarley & Lawson and B. F. Robinson have bought and are now receiving in this county about 2,500 spring lambs at prices ranging from \$8 to \$9.50 per head. The lambs this season are unusually good, averaging from 80 to 90 pounds. They are being rapidly put on the market and Gardner county lambs are considered among the best of the season.

We are informed many of the fields of wheat, the prospects of which was so flattering, are now more or less infected with smut, and would suggest as the best method for handling such crops is to let it stand until what we call "dead ripe" before harvesting, and either thresh from the shock or stack it when the wheat is thoroughly dry as well as the atmosphere, and in this way make it merchantable.

The farmers are feeling the effect of the battle of Manila; there is where we get all our sugar and coffee, and as the port of Manila is closed, as far as commerce is concerned, the supply of this commodity, is, of course, cut off, and we are dependent upon the amount now in this country, consequently binder twine is now way above par; at this time last year sisal twine was quoted at 5c per lb., now it is 10c a lb. and rising at the rate of 1c per day; however, if wheat reaches the goal to which all farmers look forward, namely, \$1 per bushel, what will be the care for a few cents difference in the price of his twine?

LINCOLN ITEMS.—Chas. Daves bought of Mrs. Martha Martin a bunch of sheeps at \$2. Albert B. Florence bought of Dr. C. A. Cox his horse and buggy for \$150. Dan Holdam sold to J. T. STATE NEWS PICK-UPS.

TROOPS ARRIVE.

They Will Suppress the Baker-Howard Feud in Clay County.—The Latter Hold the County Seat.

Lexington, Ky., June 11.—Troops arrived here at 3:30 Friday morning, got a light breakfast and started for Manchester at 6 o'clock in vehicles, piloted by Jailer Johnson, of this (Laurel) county, to preserve peace in the Baker-Howard mountain feud, which has already resulted in the killing of 11 men. Latest reports from Clay county say that about 10 barrels of whisky have been stolen from a warehouse near Manchester, and that many of the fighters are being supplied. Jailer Johnson thinks the troops will not be molested. He says that between 75 and 100 men, armed with Winchesters, are on each side.

Judge Brown has received a letter from the Baker faction, saying they will surrender to the law, if guaranteed protection. The Howards are in Manchester, and the Bakers are afraid to come in. The grand jury is sitting, but has returned no indictments.

Of the guard, 30 men were ordered from Pewee valley, under Assistant Adj. Gen. Forrester, and 20 men from Louisville, under Capt. Jacob.

Walter Forrester to London, Ky., from whence they will march to Clay county, where the Baker-Howard feud is in progress. The troops were ordered out by Gov. Bradley upon the urgent recommendation of County Judge Brown, of Clay county, who says that great loss of life may follow if the feud is not promptly suppressed and order restored.

ELIZABETHTOWN, Ky., June 11.—Lieut. Hobson, whose brilliant achievement in bottling the Spanish squadron by the sinking of the Merrimac in the Santiago harbor has made him famous, is a cousin of Hon. No Further Trouble Anticipated.

LEXINGTON, Ky., June 14.—No further trouble is reported at Manchester. The Bakers are expected to come to town Monday, and a serious time is anticipated. The report that Judge Brown has made a second call for troops is absolutely false, as the great number of stories about the leaders of the factions making threats. They are sensible and determined men and known that under the circumstances it would be sheer foolishness to make threats. They are quietly waiting to strike the final blow. Business is the dullist it has been for many years. The country people are staying away. It is reported that men have been heard to say that Judge Brown had best keep inside at night or he would be shot. The judge is doing everything possible to keep peace; hopes to close court without trouble.

Into this the friends and acquaintances of the family drop little black margined visiting cards, sometimes with a few words of sympathy on them.

In their descent with these, squads of 60 men can erect complete structures in 20 minutes. When not supplied with the pieces already made, they can, by chopping down a few trees and properly cutting them, put up a tower of almost the same kind in half an hour.

A SURVEY of the powers of Europe shows that from the beginning of the century to the end of 1890 Turkey had experienced 37 years of war and 59 of peace; Spain comes next with 31 years of war and 65 of peace; France with 27 years of war and 69 of peace; Russia, 24 years of war and 72 of peace; Italy, 23 years of war and 73 of peace; England, 21 years of war and 75 of peace; Austria-Hungary, 17 and 79; Germany (exclusive of Prussia), 12 and 83; Sweden, 10 and 86; Portugal, 12 and 81; and Denmark, 9 and 87.

CARLO DI RUFINI, son of the Italian prime minister, has been winning large sums at Monte Carlo. He is an inveterate gambler, and his father has tried in vain to reform him. He was started on an exploring trip to Africa, but slipped away at Aden and returned to Monte Carlo with the money for the expedition. He was then put up for the chamber of deputies and elected, but immediately found the opposition, and made his father buy his vote whenever it was needed. He is probably the person spoken of as slandering in the recent concession of coal lands made by China to an English and Italian syndicate.

AS the English official regulations for 1898 it is stated that the mean extreme range of the Lee-Metford bullet may be taken as about 3,500 yards, although, with a strong wind, 3,700 yards have been observed. The bullets find their way through joints of walls, unless the walls are made very fine and set in cement. About 150 rounds, concentrated on nearly the same spot, at 200 yards, will break a nine-inch brick wall. Rammed earth gives less protection than loose. When fired into sand, the bullet is to be always turned aside after it had entered a little way.

THE Alabama was the first war vessel to be launched in war times in this country for nearly thirty-five years, and in consequence the event was unlike the baptismal ceremonies of other engines of naval destruction and defense. There were no cheering thousands to witness the plunge as when the Kentucky and her sisters glided from the dock into the water. Only a select and unostentatious party witnessed Miss Morgan formally bestow the name of Alabama upon the tremendous hull of what is to be the most powerful battle ship ever designed for the American navy.

SENATOR ALLEN, of Nebraska, is determined that his son shall not go to war as an officer. If the boy goes at all, he says, it must be as a private. The son who is 20 years of age, was appointed to a lieutenant colonelcy of Nebraska volunteers and has been commissioned for active duty. The senator immediately telegraphed the boy to resign, and was reluctantly obeyed. He will not enlist as a private in the ranks. Senator Allen says he is willing that his son shall be given preference over other men because of his political influence.
